

18th City Council District

William Russell Moore (D)

Hello. My name is William Russell Moore. It is my distinct pleasure to serve you as your next Councilman for District 18 in Bronx County.

I am impressed and motivated by the voting public's sentiment in my district that, "It's time we put aside self-serving politics and place the concerns of the Community first".

My highest priorities are rebuilding our local economy, supporting our working families, providing better public safety within the community, creating new educational opportunities for grades k-12 and post secondary education, protecting and enhancing the environment, and building more youth and senior centers.

My various experiences in all levels of local government have afforded me the opportunity to "hit the ground running" and get results.

Our breakthrough as a community is long overdue, and I pledge when I am elected I will break ground on new initiatives that will put you back to work or in your own business venture with more money in your pocket.

When everyone in our district can make an honest living, we will make sustainable inroads to wealth, power and prosperity.

I have a 9-Point Political Platform on my website at Moore 2013.com. Point number 9 is my Economic Development Plan for District 18.

I plan to oversee the construction of a For-Profit holistic Multicultural Center in our District. This center will be a state-of-the-art arena built with union labor to host world class acts, On and Off Broadway performances and generate sustainable profits by tapping into the lucrative travel and tourism industry.

We have about 80 different ethnic groups in our district with very little to do. What we do to entertain ourselves is go downtown to 42nd Street and support the economic growth of lower Manhattan and not where we live.

With our very own Multicultural Center, we can showcase the stories of each ethnic group in our district and book world class acts to grow jobs and other opportunities. This center will also serve as a micro-business incubator for aspiring entrepreneurs looking to jump start a lucrative business idea to grow local jobs.

I hope you will join me, William Russell Moore, on Election Day, so that together we can move The Bronx forward. Vote for William Russell Moore. Leadership For A Better Future.
