

Mayor

John Catsimatidis (R)

I'm John Catsimatidis, I am running for Mayor and I need your vote.

I've been a CEO for over 40 years. I'm the only one in this race that has the management expertise required to run a \$70 billion organization like New York City.

We are fighting for the soul of the city. I'm the candidate in this race that supports Ray Kelly and the NYPD's efforts to keep guns off our streets and keep our children from being killed.

My education plan is to put an emphasis on vocational training — if they don't want to pursue an academic course, students can have the option to learn a trade.

These future plumbers, electricians and carpenters are tomorrow's entrepreneurs and small business owners.

Our education system is trapping our kids in poor neighborhoods. I grew up on 135th street and attended public schools in NYC.

But I made it out and they can too.

I've been on the board of PAL for 30 years helping those kids.

I am the only one in this race that has created thousands of jobs here in New York City.

As Mayor I will create more jobs and promote smart economic development.

I am a visionary with big ideas.

I want to create a 21st century world's fair and have pavilions in every borough.

I want to build an aboveway that will be cheaper, safer and more efficient than spending decades and tens of billions on subway expansion.

I am a common sense businessman with the skills and expertise to be Mayor.
